### **Phillip Johnson heads Shen Milsom & Wilke's Dubai office**

Phillip Johnson, senior associate, is the new manager of Shen Milsom & Wilke's Dubai office. The company has maintained an office in Dubai since late 2001 to serve clients throughout the Middle East.

Mr. Johnson's role includes business development, project management, and establishing short- and long-term business strategies. He brings 20 years' experience on many different types of projects, including international airports, high-rises, corporate headquarters, and government, educational, and healthcare facilities. His common-sense approach to converging technologies balances user requirements, architectural design, existing conditions, and budget realities.

Shen Milsom & Wilke's Dubai office has a staff of five, with capabilities in acoustic, information technology, multimedia, and security design. The office is actively recruiting to fuel further expansion.

Shen Milsom & Wilke's ability to adapt to various project locations is one of the firm's greatest strengths. "Projects designed in New York, built in Qatar, and managed from Dubai or London are common," Mr. Johnson says. The company has offices in 11 cities.

Mr. Johnson is a member of the Society of Cable Telecommunications Engineers, Building Industry Consulting Services International, and a Registered Communications Distribution Designer. He has a B.S. in management from the United States Coast Guard Academy, and a Masters Degree in Business Administration from Chaminade University.

*Shen Milsom & Wilke [[www.smwinc.com](http://www.smwinc.com)], an international technology consulting practice founded in 1986, offers comprehensive services in the areas of multimedia, voice/data, building security, and acoustics. The firm has a staff of more than 150 professionals and eleven offices worldwide.*
